Dr. Constantin Theodor Dumba,
Austrian Ambassador to the United States, who on account of his confessed
suggestion to strike made to subjects of Austria employed in American
factories with contracts for war munitions for the enemies of Austria,
suddenly finds himself in need of a steamship ticket to Fiume. The
American authorities have wired the United States Ambassador to Vienna
to request the Austrian government to recall Mr. Dumba.

SEVERAL ENVOYS RECALLED AT UNITED STATES' REQUEST.

THE requests for the recall of foreign representatives made by the
United States follow:
1788—Count De Moustier, Minister of France. Charge, "Politically and morally offensive." Transferred to the Court of Prussia.
1793—Mr. Edmond C. Genet, Minister of France. Charge, "Proceedings and criminal maneuvers," in fitting out privateers against Great Britain and violating neutrality. Recalled.
1853—Mr. Marcollet, Minister of Nicaragua. Charge, "Efforts to defeat negotiations between United States and Costa Rica and Nicaragua." Official relations suspended but new credentials presented and accepted in succeeding administration.
1863—Henry Segur, Minister of Salvador. Charge, "Violation of neutrality of United States in respect of a conflict between Salvador and Guatemala and Nicaragua." Recalled.
1871—Mr. Catacazy, Minister of Russia. Charge, "Abuse of the President and personally unacceptable." Diplomatic connection with Russian legation severed.
1898—Senor Du Puy De Lome, Minister of Spain. Charge, "Attack on President McKinley as weak and a bidder for the admiration of the crowd, besides being a would-be politician who tried to leave a door open behind himself while keeping on good terms with the jingoes of his party." Resigned.
Dismissals of foreign diplomatic representatives:
1805—Marquis of Casa Yrujo, Minister of Spain. Charge, "Attempt to tamper with the press," to advocate Spanish interests.
1809—F. J. Jackson, Minister of Great Britain. Charge, "Gross insinuation" against the word and good faith of the United States government and adoption of a "hostile policy."
1840—M. Poussin, Minister of France. Charge, "Disrespect to the United States government."
1855—Mr. Crampton, Minister of Great Britain. Charge, "Violation of United States neutrality laws," in securing enlistments in this country for Crimean war.
1888—Lord Sackville-West, Minister of Great Britain. Charge, "Interference in domestic politics."

TAFT TELLS BANKERS WHY AMERICA HALTED.

SEATTLE (Wash.) Sept. 9.—Former President William H. Taft today told the American Bankers' Association, in convention here, that practically all the radical reforms attempted in connection with politics, railroads and "big business" had failed of their purpose, causing the nation to halt in its progress, and that there must now be a "retracing to the line of moderation and justice."

In giving an "economic and political summary of the generation just closing," Mr. Taft said that the latest outstanding feature appeared to be the widespread growth of the spirit of the brotherhood of man, despite

AUSTRIAN AMBASSADOR NO LONGER ACCEPTABLE.

Attempt to Cause Strikes in Munitions
Factories a Flagrant Breach.

Lansing Announces that the Act of the Diplomat was
a Violation of Propriety—Also Criticizes His Attempt
to Communicate with His Government by American
Citizen Abroad on a Passport.

[BY A. P. NIGHT WIRE.]

WASHINGTON, Sept. 9.—Ambassador Penfield at Vienna has been instructed to inform the Austro-Hungarian government that Dr. Constantin Dumba no longer is acceptable as an envoy to the United States and to ask for his recall.

Secretary Lansing formally announced the action tonight. It was the answer of the American government to Dr. Dumba's explanation of his intercepted letter to Vienna outlining plans for handicapping plants in this country making war supplies for the allies.

Ambassador Penfield was instructed by cable yesterday to deliver the following note to the Foreign Office:

"Mr. Constantin Dumba, the Austro-Hungarian Ambassador at Washington, has admitted that he proposed to his government plans to instigate strikes in American manufacturing plants engaged in the production of munitions of war. The information reached this government through a copy of a letter of the Ambassador to his government. The bearer was an American citizen named Archibald who was traveling under an American passport. The Ambassador has admitted that he employed Archibald to bear official dispatches from him to his government.

"By reason of the admitted purpose and intent of Mr. Dumba to conspire to cripple legitimate industries of the people of the United States and to interrupt their legitimate trade, and by reason of the flagrant violation of diplomatic propriety in employing an American citizen protected by an American passport as a secret bearer of official dispatches through the lines of the enemy of Austria."

GERMAN CROWN PRINCE WINS IN THE ARGONNE.

Takes Trenches Over Front of Two Kilometers, Captures
2000 Prisoners, Large Number of Guns—The
Russians, Aided by Heavy Rains and More Ammunition,
Seem to be Making More Successful Stand.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Sept. 9.—The German Crown Prince is making another determined attempt to break through the French lines in the Argonne and, according to the Berlin official statement, has succeeded in taking trenches over a front of two kilometers (1 1/4 miles) and to a depth of from 300 to 500 meters, capturing 2000 prisoners, 48 machine guns and 64 mine throwers.

The French, both in their midnight report and again this afternoon, admit that the Germans had gained a partial success but declare that in most instances they were thrown back with heavy losses.

This is the second effort of the German Emperor's heir to win a victory in this region within the last three months and although on each occasion he gained a small amount of ground, he is apparently as far from his objective this time as on the previous occasion. Fighting was in progress all yesterday and throughout the night and was still going on when the last report was issued.

There has been no change in the situation since my last communication. There has been mining activity on both sides without important result. Our own artillery and that of the enemy has been active east of Treppe. Elsewhere on our front conditions are normal.

A German aeroplane was brought down by rifle and machine gun fire on September 1, falling close behind the German lines southeast of Hoge. A second German aeroplane on September 5 was brought down by one of our fighting machines. It fell behind the enemy's lines opposite the southern part of our front.

The Reaper.

ALBERT G. SPALDING
DIES AT SAN DIEGO.

[BY A. P. NIGHT WIRE.]

SAN DIEGO, Sept. 9.—Albert G. Spalding, famous sporting goods manufacturer and San Diego capitalist, died unexpectedly at his home on Point Loma late tonight. Death was due to apoplexy. He was 65 years old.

In the first primary election of California for United States Senator in 1910, Mr. Spalding entered the race against John D. Works of Los Angeles. Although he had only thirty

days for his campaign, he carried seventy-five legislative districts of the State, as against forty-five for all other rivals. Despite this, the State Legislature declared that Works should be chosen and Spalding was defeated.

Spalding, since making his home in California, was influential in the good roads movement for Southern California.

The funeral will be held Saturday afternoon.

GERMANS DRIVE FRENCH BACK.

Over Mile of Trenches Taken in the Argonne. Many Guns and Two Thousand Men Captured.

In Russia the Teutons are Making Steady Gains.

BERLIN, Sept. 9 (via London).—An important victory in the Argonne was announced today by the War Office. French positions over a front of two kilometers (one and one-fourth miles) and 300 to 500 meters deep were captured. The War Office also announced that in the Seppelien raids over England on Tuesday and Wednesday night bombs were dropped on docks and other port establishments in London and vicinity. The German ships returned safely. The statement follows: "Western theater of war: In the Argonne, north of Vienne la Chateau, Württemberg and Lorraine regiments began yesterday an attack, which was supported effectively by artillery. The infantry charged and took possession of positions of the enemy at several points of support over a front of more than two kilometers and from 300 to 500 meters deep. We captured thirty-eight officers, 1192 men, forty-eight machine guns, sixty-four mine throwers and one cannon. "During the night before and yesterday docks as well as other port establishments in London and vicinity were bombarded with explosive and incendiary bombs. The effect was very satisfactory. The effect of heavy shelling our airships returned undamaged. A German aircraft squadron has attacked Nancy. "In Russia: "Eastern theater of war—Army group of Field Marshal von Hindenburg: From the Baltic, as far east as Oita, there has been no important change. Our troops near Skidell, south of the Niemen, defeated the enemy, who retreated behind the Melnik. On the western bank there remain only some rear guards. This army group has taken 150 prisoners and one machine gun. "Army of Prince Leopold: The Melnik has been reached at various places during the fighting with the rear guards of the enemy. Austro-Hungarian troops continue to advance in the forest of Biele. "Army of Field Marshal von Mackensen: The northern bank of the Jaisola has been gained near Chomak. The enemy has been compelled to evacuate his positions near Berez-Kartuska. "Southeastern theater of war: The northern wing of the enemy's force, which had advanced south of Otrou and toward the Sereth, has been driven back."

BRITISH BUYING MISSOURI MULES.

KANSAS CITY (Mo.), Sept. 9.—British agents in the last two months have bought more than 15,000 pack mules here, according to statements by local dealers today. Some of the mules taken recently have been more than 15 years of age, the dealers said. In the last two weeks more than 1500 mules have been shipped out of Kansas City and routed by way of New Orleans to Egypt. It is believed the Missouri mules will be used to supply transportation for a new Asiatic campaign against the Turks.

TAFT TELLS BANKERS.

(Continued from First Page.) The fact that the war had shattered the dreams of universal peace. In his opening remarks Mr. Taft outlined the growth of large combinations in business; their success in adoption to politics; and how the "chase for the dollar" had absorbed all the energy of the nation. He realized they were almost in the grasp of a plutocracy. It was then that agitation for reforms swept the country, he said, and public indignation became acute. "The leviathan of the people cannot be stirred to such action as has been taken and stop short at the line of moderation," said Mr. Taft. "The hostility of legislatures and Congress came to be directed against all successful investment of capital without discrimination. Nothing so timid as capital, and nothing so easily able to take care of what it has." He then said that a deplorable feature of such excess of remedy was that the wage earners suffered most. RAILROADS. "The close and absolute supervision over the management of railroads," said Mr. Taft, "and the restriction upon the rates charged by them in interstate commerce and in commerce within States, together with the increase in cost of maintenance and of wages through the efforts of labor unions has around the railroads between the taxpayer and the consumer a barrier of stones. All this is to the detriment of the business of the country, and especially to the comfort and happiness of the wage earners dependent on normal business and normal demand for labor. "We are all in the same boat. The prosperity of the country is dependent on the prosperity of all. This is no reason why we should not repress injustice and punish abuse of power. But it is a reason why we should not indulge in excess. "We must promptly grant increased rates to the railroads when conditions require it. We must not allow the outrageous injustices to continue by which we inaugurate the real reform of parcels post, and do nothing to carry the enormous increase of traffic for nothing. We should repeal the full crew bills that impose upon the railroads the burden of employing unnecessary labor. In ensuring these excesses there is no reason why we should not retain the real progress we have made in detroning plutocracy."

SAYS SOUTHLAND IS TORPEDOED.

BERLIN, Sept. 9 (via Tuckerton, N. J.).—A statement given out by the Overseas News Agency today quotes the Wasser Zeitung of Bremen as saying that the British steamship Southland, serving as transport, was torpedoed recently in Turkish waters. The article says: "The Wasser Zeitung of Bremen points out that the transport Southland was torpedoed in Turkish waters. The Southern liner formerly was the Red Star liner Vandalia, which was captured by the German navy on the night of the occupation of Belgium and now the Southland, which lately was flying the American flag, suddenly was changed into a British transport."

WAR DELAYS MISSIONARY WORK.

LUTHERAN CHURCH REPORTS ALL PROGRESS IN INDIA BEING HELD BACK. ROCK ISLAND (Ill.) Sept. 9.—The Board of Foreign Missions of the General Council of the Lutheran Church in America reported at the biennial convention of the General Council here today that, owing to the world war, the Lutheran Church in America has been called upon to render aid to a number of German missionaries in India. Another effect of the war is that a number of Lutheran missionaries who had planned to go out from America a year ago have been kept back, there being a shortage of fourteen missionaries who are waiting to be commissioned in some special service. The proposal to establish a joint seminary at Madras, India, in which Lutherans of Europe and America are to co-operate has been delayed. The year 1917, in addition to being the 40th anniversary of the beginning of the reformation, will mark the 75th anniversary of the departure of Father Haver from Philadelphia to found the first Lutheran mission in India. It is proposed to make the anniversary an occasion of a general missionary celebration in the Lutheran Church. The receipts for foreign mission work during the year were \$118,353. COUNCIL ELECTIONS OFFICERS. (BY A. P. NIGHT WIRE.) MOLINE (Ill.) Sept. 9.—The General Council of the Lutheran Church of North America today elected the following officers: President, Rev. Theodore E. Schmauk, Lebanon, Pa.; English recording secretary, the Rev. G. C. Borkmeyer, Mt. Vernon, N. Y.; Swedish recording secretary, the Rev. L. G. Abrahamson, Rock Island, Ill.; English corresponding secretary, the Rev. F. A. Schaeffer, Buffalo, N. Y.; German corresponding secretary, the Rev. H. Offeran, Philadelphia, Pa.; Swedish corresponding secretary, the Rev. Alfred Appel, Burlington, Iowa; treasurer, A. G. Anderson, Rock Island, Ill.

EQUALS ALTITUDE RECORD.

PARIS, Sept. 9, 5:05 a.m.—The French aviator, E. X. Denaris, has equaled the world's altitude record of 6600 meters (21,500 feet) established by the German aviator, Otto Linnelkohl, in an aeroplane at Jonaishofel July 31, 1914.

AUSTRIANS GO INTO DUBNO.

Second Fort of the Russian Triangle is Captured. Petrograd Reports a Victory in Eastern Galicia.

In the Grodno District the Czar's Troops Retreat.

(BY ATLANTIC CABLE AND A. P.) LONDON, Sept. 9.—A dispatch to the Central News from Vienna says it is officially announced that the Austrian landwehr cavalry entered the fortress of Dubno in the Lutske-Dubno-Ravno triangle of fortresses yesterday. A dispatch to Reuters Telegram Company from Amsterdam says: "A dispatch received from Vienna declares that yesterday the Russian Dubno, the second point on the Volhynian triangle, was captured. The barrier posts up the river are in the possession of the Austrians." Dubno, with a population of some 15,000, is in the government of Volhynia on the Ikva River, a short distance north of the East Galician frontier. Lutske, another of the forts of the triangle, was taken recently. RUSSIANS REPORT VICTORY. (BY ATLANTIC CABLE AND A. P.) PETROGRAD, Sept. 9 (via London, Sept. 10, 2:45 a.m.).—An official communication made public here, announced that the Russian army in the East Galician frontier. Following their reported victory at Tarnopol, the Russian army, under the command of General Brusilov, has captured the town of Trembovia, during the 7th and 8th, the Russians took as prisoners 150 officers and 7000 men and that the Russian army had been driven toward the River Strypa. The communication adds that the Russians captured since September 3 over 17,000 men and a great quantity of guns. The following communication was issued from general headquarters tonight: "In the region of Riga and also of Friedland, the situation is unchanged. The fighting continues with the same stubbornness as before, though the Germans have offered no resistance to the Russian bayonet attacks. "The enemy is carrying out a series of attacks, evidently with the object of driving the Russian army from the right bank of the Dvina in the section of Dvinsk. There has been an artillery engagement of particular interest, in which the Russian guns have been firing without change. The enemy is strongly fortifying himself. "In the direction of Grodno, south-east of the left bank of the Niemen and in the region of the mouth of the Rof, the stubborn fighting of the Russians on September 8, 1915, has been continued. "Especially persistent enemy attacks are reported from the Skidell region. The Russians continue their fighting, occasionally delivering counter attacks. At Sokolov, west of Skidell, the Germans fell after a Russian center attack. "Between the Niemen and the Pripiet, the Russians are retreating to the region of Zalivanka and Roshyn. Along the left bank of the Pripiet there has been an offensive of the Russian army, and the enemy cavalry and infantry have been held up on the Kamienka, Kashiaki and Pinsk roads."

DUMBA NOT ACCEPTABLE.

(Continued from First Page.) tria-Hungary, the President directs me to inform Your Excellency that Mr. Dumba is no longer acceptable to the government of the United States as the Ambassador of its Imperial Majesty at Washington. "Believing that the imperial and royal government will realize that the government of the United States has no alternative but to request the resignation of Mr. Dumba on account of his improper conduct, the government of the United States expresses its deep regret that this course has become necessary, and assures the imperial and royal government that the sincere and friendly relations which exist between the United States and Austria-Hungary."

STATE BUREAUS PROVE FAILURE.

Free Employment Agencies not in Operation.

No Attempt to Find Work for Those Who Need It.

Striking Union Printer in New Orleans Fined.

SACRAMENTO, Sept. 9.—The free State employment bureaus, provided for by the last session of the Legislature and intended to relieve the unemployed problem in California, are said to be already a failure before one of them has been in actual operation in California.

Local employment agencies are doing the normal amount of business and workmen are paying their fees just the same as before.

UNIONIST IS FINED.

NEW ORLEANS, Sept. 9.—E. N. McNabb, a striking union printer, was fined \$50 or sixty days in First City Criminal Court for assaulting, cutting and wounding two printers now employed on an afternoon paper.

EIGHT HOURS A DAY.

State-wide Campaign for Uniform Working Hours is to be Started in Connecticut.

NEW HAVEN (Ct.) Sept. 9.—The opening of a state-wide campaign for the eight-hour work day under the direction of the American Federation of Labor was indicated today when several labor leaders who have figured in industrial adjustment in Bridgeport since the early summer, came here to begin a speaking campaign.

John J. Egan, organizer for the International Association of Machinists, will speak each noon outside the gates of various metal-working plants.

THE WEATHER BACK EAST.

Heavy Storms are Followed by a Hot Wave in the Middle West. Southwest is Cooler.

CHICAGO BUREAU OF THE TIMES, Sept. 9.—Following last night's fierce storm, Chicago was much cooler today, the maximum temperature being 73 deg., with more rain. The East and other parts of the Middle West continue hot, in the 90's, but the Southwest is cooler.

(Continued from First Page.)

deeply regrets that lives were lost through the action of the commander. It particularly expresses his regret to the government of the United States on account of the death of American citizens.

"The German government is unable, however, to acknowledge any obligation to grant indemnity in the event of a submarine attack on a merchant ship, even if the commander should have been mistaken as to the aggressive intentions of the ship."

"If it should prove to be the case that it is impossible for the German and American governments to reach a harmonious opinion on this point, the German government would be prepared to submit the difference of opinion, as being a question of international law, to the Hague Tribunal for arbitration, pursuant to article 23 of the Hague convention for the pacific settlement of international disputes."

"It is so doing it assumes that as a matter of course the arbitral decision shall not be admitted to have the importance of a general decision on the permissibility of the use of submarine warfare."

REPORT FROM PAGE WITH AFFIDAVITS.

WASHINGTON, Sept. 9.—A note from Germany regarding the sinking of the liner Arabic reached the State Department by cable through Ambassador Gerard today soon after the arrival of a main report from Ambassador Fagot at London enclosing affidavits of the Arabic's survivors.

With all available information concerning the case at hand President Wilson and Secretary Lansing now are in a position to consider the course to be pursued by the United States. In connection with the German explanation they will give consideration to the assurances given since the Arabic incident that German submarine commanders are under instructions to destroy no more liners without warning.

The sufficiency of the German excuse for attacking the Arabic is believed to hinge in some degree upon the movements of the liner just before the explosion.

The affidavits of survivors, it is understood, indicate that the vessel was torpedoed was doing no more than following the tactics commonly pursued when the presence of a submarine is suspected—signaling in the hope of escaping a torpedo.

Outside of a narrow official circle it was not known in Washington until the Associated Press tonight received the text of the memorandum from Berlin that Germany had refused to admit any obligation to pay indemnity for the loss of Americans with the Arabic, even if it should prove that the submarine commander was mistaken in believing the liner was an enemy vessel.

Dr. Meyer, back wrenched by the explosion of the scap, was injured today, none other than a head-on collision between an electric passenger train and a steam freight on the Northwestern Pacific Railroad at Corte Madera, just north of the north portal of the Corte Madera tunnel. Responsibility for the crash was placed by the company on the motorman of the electric train, who, they said, ran his train past a signal set at danger.

The most seriously injured were: Frank Meyer, motorman of the electric train, who was killed; and several passengers, including a woman and child, who were killed.

TEXAN HAS RIVAL AS ELKS' RULER.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) EL PASO (Tex.) Sept. 9.—Friends of George E. Wallace of El Paso, both here and throughout Texas, are preparing to make a fight on the floor of the next national convention at Baltimore for the election of Wallace as grand exalted ruler of the Elks, at that time. Wallace practically received the unanimous support of the grand lodge at Los Angeles for the position next year and it was considered as almost settled that he would get the place.

But the announcement that Edward Righter of New Orleans will run for exalted ruler next year has caused Wallace's friends in Texas and throughout the country to get busy and prepare to take the fight to the floor of the convention. It is pointed out that Grand Lodge politics have entered into the fight, and that Wallace has been sidetracked for the New Orleans candidate.

Train Guns on Texans.

(Continued from First Page.)

trench, over the edge of which enough rifle muzzles were pointed to indicate that there were at least a hundred men behind the breastworks.

Upon the appearance of the United States border patrol, there appeared to be unusual activity in the trench. A bugle was sounded and in a few minutes a man believed to be an officer mounted the earthwork and trained field glasses on the United States soldiers. The American troops dismounted and placing their horses in the shelter of a sand hummock prepared to defend themselves.

After a wait of five minutes in which no shot came from the Mexican trench the lieutenant and two troopers walked boldly to the river.

QUESTIONS MEXICAN. "Who are you and what are you doing?" was the question shouted across the river.

"We are Mexicans defending ourselves on Mexican soil," was the reply from the officer who spoke English.

"We will not fire on your soldiers unless you fire on us," he continued, "but we have orders to fire on any of your rangers, sheriffs or civilians on sight and we are going to do it. They have already given us plenty of provocation."

The incident as stated above was reported essentially to the military headquarters at Harlingen. When word of the threat against citizens and rangers reached Brownsville, several automobiles loaded down with men and rifles left town shortly afterward.

Although the recent army order placing the river zone under the authority of the military prohibits

rangers, civil officers or armed civilians from taking part in the border affairs unless called upon by the officer in command of the soldiers, the latest affront to citizens of Texas is believed to be more than many will submit to.

MORE CAVALRY SENT. Two troops of cavalry were immediately ordered overland from Harlingen to take the places of the various patrols that had been moved to Progreso from points up and down the river. Strict orders were given to prevent all civilians from entering the danger zone within range of the Mexican rifles along the river bank.

"Unless Washington takes some decisive action on this matter and takes it pretty quick we can expect this condition of affairs along the border to get worse and worse every day," said J. B. Scott, president of the Merchants' National Bank and the Brownsville Land and Improvement Company.

Large numbers of Mexicans continued to go from the American to the Mexican side of the border throughout the day. With their wagons and carts loaded down with all their household belongings, they formed a continual stream across the international bridge.

VILLA SOLDIERS STARVE TORREON. (BY SEYMOUR RANSOM. (BY DIRECT WIRE—EXCLUSIVE DISPATCH.) EL PASO (Tex.) Sept. 9.—Gen. Villa's forces retreating from Paredon are concentrating upon Torreon, taxing that already famishing city to the utmost. Messengers report tonight from Torreon state that conditions there are intolerable. Villa's soldiers are appropriating what little supplies are

WATCH PAPERS ON THE BORDER.

(BY A. P. DAY WIRE.) WASHINGTON, Sept. 9.—The Department of Justice is keeping close watch on Mexican newspapers published in American border towns. Officials say the printing of articles designed to incite rebellion against this country will be followed by prosecution in the courts.

If the department decides to take action the facts will be laid before the grand jury in the proper jurisdiction.

San Francisco Man Thrown President of American Association. Kansas City Gets Convention. (BY A. P. NIGHT WIRE.) SEATTLE (Wash.) Sept. 9.—The annual convention of the American Bankers' Association adjourned today after electing James K. Lynch of San Francisco president and Peter K. RETAIN ROGERS AS THEIR HEAD.

President Re-elected by Post-office Clerks.

His Vigorous Policy Most Warmly Commended.

Roster of Other Officials for Ensuing Year.

As a hearty endorsement of his vigorous policies for the past year, Frank T. Rogers was yesterday re-elected president of the United National Association of Postoffice Clerks. He was cheered to the echo as he modestly thanked the association for the honor and assured the delegates that he will pursue the same vigorous policy he has heretofore employed in seeking the best interests of the postal employees.

Frank H. Waldeck of Warren, O., was advanced from second to first vice-president, and the other officers were filled as follows: Second vice-president, Lucius H. Watson, Lincoln, Neb.; third vice-president, John G. Thompson, Los Angeles; secretary, William F. Gibbons, Scranton, Pa.

Anti-Gompers Men Named to Head National Body.

Officers of the National Association of Postoffice Clerks elected yesterday.

Above, left to right, are Frank H. Waldeck, first vice-president; Frank T. Rogers, president; William F. Gibbons, secretary; below, left to right, James Reid, Jr., trustee of the Mutual Benefit Auxiliary; Joseph J. Gallagher, chairman advisory board; John G. Thompson, third vice-president; Lucius H. Watson, second vice-president; Edward A. Diederich, chairman organization committee of northern division.

treasurer, T. Raymond Watson, Philadelphia; chairman advisory board, Joseph J. Gallagher, New York City; members of advisory board, F. E. Foss, Minneapolis; A. L. Linder, Alameda, Cal.; S. H. McKinney, Baltimore; and Edward J. Rorke, Brooklyn; Finance Committee, William J. Magee, Boston, chairman, and Samuel E. Bear, Kansas City; Roscoe O. Blakeley, Des Moines; J. L. Cooper, Atlanta, and William E. Sullivan, Madison, Wis.; northern organizer, Edward A. Diederich, Cleveland; southern organizer, Sidney J. Ward, Shawnee, Okla.; western organizer, T. Lester Kirk, Bremerton, Wash.; trustee Mutual Benefit Auxiliary, John J. Coyne, Pittsburgh.

Retirement pensions for postal clerks, designated as the paramount issue for the campaign for the next year, was the chief subject for discussion at yesterday's business sessions of the United National Association of Postoffice Clerks at the Alexander Hotel. Congressman C. H. Randall of Los Angeles, himself an ex-postal clerk, delivered the principal address, and Congressman J. M. Ragsdale of South Carolina also spoke.

With the election of officers and adoption of the Resolutions Committee report in the afternoon the business sessions closed.

In the evening the postal clerks held an open meeting and a reception to the new officers. Frank T. Rogers, retiring president, said that the Los Angeles convention has been one of the most successful and satisfactory from every point of view of any recent meeting of the organization.

"Although 80 per cent of the membership of the association is east of the Rocky Mountains, the voting strength of this convention is only eight less than the Omaha convention of last year," said Mr. Rogers.

Congressman Randall told the postal clerks that, inasmuch as he has seen service as a railway mail clerk, he felt competent to judge the needs of the service from their point of view, and he promised hearty support for the passage of a bill to provide for pension retirement for postal clerks. He said he believes a just pension system will increase the efficiency of the service by giving young men an incentive to remain in the service and give it their best efforts. At present, he said, the postal clerk has nothing to look forward to and consequently he seeks other employment. There is no market for his experience with the postal department, said Congressman Randall, and the ambitious young man naturally accepts the first opportunity to get into some other line of work.

A decision was reached yesterday to hold the convention hereafter biennially, and Fort Worth was decided upon for the convention of 1917.

BOTTLED JOKE.

It Travels on Wild Ocean Waves from Catalina Island to French Indo-China.

One little joke, sealed in a bottle and tossed in the Pacific Ocean off Catalina Island, made a ripple that extended to the far-off shores of French Indo-China and back to Los Angeles. The return of the joke came in a letter to the Mayor yesterday from Consul Briggs, who said that the bottle contained a note saying that the signers would pay "\$25,000" if the bottle is returned to them.

Although Consul Briggs says he believes it all a joke, he also says that the Chinese fishermen have taken it so seriously that they are that the signers would pay "\$25,000" despite the omission of any information whether it is dollars, cents or buttons.

In response to the note, the Mayor's secretary will try to ascertain the whereabouts of Mrs. J. L. Agar, Catalina Island, and J. L. Agar, J. M. Becker, J. M. Burke, A. C. Reed and J. A. Martin, Los Angeles, whose names are signed to the note. The names do not appear in the city directory.

ACCIDENTALLY SHOT.

(LOCAL CORRESPONDENCE.)

WHITTIER, Sept. 9.—Gilbert Williams, ten-year-old son of Mr. and Mrs. Joseph Williams, living on Telegraph road southwest of Whittier, was accidentally shot through the stomach yesterday afternoon, and died at the Montebello Hospital last night. The little fellow was trying to shoot a squirrel in a reaching for the gun, which he had placed under the house, the weapon was discharged.

TO SAVE PIGEONS.

Lawyers Interesting Themselves in Behalf of Feathered Flocks About the Old Courthouse.

Lawyers and attaches of the Courthouse are preparing to appeal to the Game Warden in behalf of the pigeons which, for many years, have made their homes in the eaves of the Courthouse. Occasionally a gun is fired, hundreds of pigeons whirl into the

air and circle in a frenzy and one perhaps flutters to the lawn with blood-stained breast.

The Courthouse pigeons are one of its picturesque sights. They have become so tame that they fly away only when a hostile demonstration is made. There seems to be a movement on foot to exterminate them, on the ground they are a nuisance. Occasionally a squab is caught and makes a meal for a figure that surreptitiously crawls out on the eaves.

NO DISMISSAL OF MURDER CHARGE.

DISTRICT ATTORNEY MAY REPLY CASE OF TUGWELL, ONCE CONVICT.

Dist. Atty. Woolwine stated yesterday that he has no intention at present of dismissing the murder charge against Percy A. Tugwell, who won an appeal from the ruling of Judge Willis in the Superior Court, where he was convicted of murder in the first degree.

Tugwell was said by the police to have confessed slaying Mrs. Maude B. Kennedy in a vacant lot at Jefferson street and Sixth avenue. Later he repudiated the confession. His sensational trial ended in a conviction. His attorneys carried the case to the Appellate Court, citing as error the ruling of Judge Willis to the effect that the testimony of a witness be excluded.

Following this reversal and the granting of a new trial to Tugwell, it was asserted that the prosecution would be dropped. Deputy District Attorney Keyes prosecuted Tugwell and won commendation for the manner in which the case was handled.

MINE FRAUD ALLEGED.

Postoffice Inspector Webster went to San Diego yesterday to prepare the evidence of the government against John Noble, Thomas Noble, Jr., and H. Bert Walton, charged with using the mails to defraud in connection with a mining deal. It is alleged that the Nobles induced investors in Pennsylvania to part with about \$30,000 for a San Diego gold mine of no value. Walton is the chemist who, the government alleges, furnished the false assays that induced the victims to invest. The trial will begin before Judge Trippett in San Diego next week.

DARKEN GRAY HAIR; LOOK YOUNG

Gray Hair Changed to an Even Beautifully Dark Shade. No Dye.

You can easily turn your gray, faded or streaked with gray hair beautifully dark and lustrous almost overnight if you'll apply a few times, Q-Ban Hair Color Restorer to hair and scalp like a shampoo. Q-Ban is harmless, not sticky, delightful to use and darkens all your gray hair so naturally and evenly that no one can tell it has been applied. Q-Ban acts on the roots, makes hair and scalp healthy, changing gray hair and entire head of hair to that soft, even dark luster, fluffiness, beauty and abundance which makes the hair so fascinating and attractive, besides preventing dandruff, itching scalp and falling hair. Try at our risk—guaranteed. Only 50 cents for a big 7-oz. bottle at McKay & Monkman's Drug Stores, Broadway and Ninth street, Pico and Flower streets, Daly and North Broadway, Los Angeles, Cal. Out-of-town folks supplied by parcel post. Call or write asking for Q-Ban Hair Color Restorer.

J.W. Robinson Co.

AT THE STAGE DOOR

Some of the clever lines from "Beverly's Balance":
"All the nicest people are doing time in the newspapers nowadays."
"If we go on being married it's certain to break up our friendship."
"A young millionaire should keep his feelings in cold storage."
"A man divorced only once in New York is hardly shopworn."

Smooth Voyage.

Joan Sawyer says the only accident she met with in crossing the country to San Francisco in a machine was one blow-out, one puncture, running into a truck as big as the Singer Building, and killing a Ford.

Musical No Chorus.

Mack Sennett, director of the Keystone Triangle Film, declared the other night that he doesn't care for music to accompany picture-play comedies.

"Music is all right with screen dramas," he said, "but except for very simple melodies played on one or two instruments music reduces the percentage of laughs, so far as film comedies are concerned."

Some Ad.

The Paramount Pictures Corporation has begun an advertising campaign that's "pep" in the original package. "Exhibit A" is a tasteful booklet, with a poster cover design, containing clever advertising schemes for use by Paramount exhibitors.

Avery's Backfire.

Avery Hopwood denies that he is "taking some of the love out of 'Sadie Love'."
"It is not true that I am expurgating my play. I am not toning it down, nor shall I."
"We've all heard of the antics of Boston and other backwoods towns, which have gone around covering up works of art with trousers and aprons. Thank heaven, Los Angeles is not in that class! The dramatic critics of this city pointed out that my play was risqué, but they were human and honest enough to add that it amused them, and that they liked it, which proves that they are really critics, and not hypocrites."

"Finally, as to the objection to the use of pajamas in the second act, it occurs to me that it is more modest to use pajamas than not to use them."

Molly on Big Time.

Molly McIntyre, the Scottish actress, who came to America to play "Bunty Pulls the Strings," and who later appeared in "Kitty McKay," will soon be seen at the Orpheum in "A Breath of Old Virginia," in which, it is said, the author makes use of the switch-back method used in motion pictures.

Visit from Lucy.

Julian Eltinge will bring "Cousin Lucy" to the Mason next season.

Weather Report.

Avery Hopwood seems very careless in his selection of titles for his plays. Why was not "Sadie Love" instead of his other new play named "Fairer and Warmer?"

Painless Learning.

A movement to put the history of the United States into films is under way. Fancy the self-consciousness of our present-day heroes and statesmen as they perform great deeds, with the all-seeing eye of the camera upon them.

"Dearest," says some up-to-date Paul Revere, "is my hat on straight? And don't you think striped socks would be neater?"

And Daniel Webster would be manufactured before he made a speech!

Mary May "Film."

It is reported that Mary Garden is a film possibility with the Triangle. In case she appears in pictures, she will do either "Thais" or "Sappho."

Sold, B'Gosh.

Three old soldiers blew in from Bartlett yesterday, to view Foster Ball in his old soldier characterization, and to find out whether he was a sincere veteran or not. When they discovered he was only 25 years old, with no more beard than a billiard ball, they went home in disgust.

Another Race-Runner.

Mabel Normand, who holds several records for long-distance swimming, swam five miles at Santa Monica beach one evening last week, defeating twenty contestants who entered the race.

Whose Goat was It?

When Eddie Foy and the family of Foyettes were signed to appear in Keystone comedies, Mack Sennett had a special building erected in which dressing-rooms, baths and all other conveniences were installed. The Foyes have been living at Santa Monica, but have kept much stage and street wardrobe in their dressing-room cottage at the Keystone studios.

The other morning when they arrived for work they found their cottage in disorder. Costumes were littered on the floors, chairs were overturned, and make-up was crumpled and smeared over the floor.

It was evident that a burglar had been at work, and Father Foy started an armed investigation, for strange noises were emerging from an inner room. Employees were hastily supplied with weapons and surrounded the house. Foy, with a huge pistol in one hand, cautiously opened the door leading to the source of the strange sounds, and came face to face with—a goat!

The animal had strayed in from the studio yard after having been used in a scene the day before, and had been overlooked when the cottage was locked for the night. Foy is reported to have looked the animal calmly in the eye and remarked: "Well, I don't know whose goat you are; but I'm not looking for anybody's angora, goat!"

Four Graces.

Grace Cunard, leading woman in "The Broken Coin" series, being filmed at Universal City, received a serious injury when she was thrown from her horse the other day, and was at once removed to a Los Angeles hospital. It is unlikely that she will be able to be about for at least a fortnight.

PERFECT SCORE IN RIFLE SHOOT.

WILLIAM RICHARDS WINS AT SIX HUNDRED YARDS.

(BY A. P. NIGHT WIRE.)
SEAGIRT (N. J.) Sept. 9.—Capt. William H. Richards of Ohio today won the Hayes individual match at 600 yards, with a perfect score for ten continuous targets at the twenty-fifth annual rifle tournament here. Sgt. Roscoe Arnett of the United States Marine Corps was second, with a 49. Maj. Winkfield S. Price of New Jersey and Private W. M. Randle of the marine corps, each tallied 48, but Price was given third place because of the position of his shots.

Chief Range Officer Alvin Graf denied the claim of several team captains who protested the company team match earlier in the day, on the ground that the winning team, troop A, of Squadron A, of New York, had exceeded its time allowance. The Second New Jersey Regiment won the Columbia trophy match, with a team total of 514 on the three ranges. The Third Regiment was next with 739, and the Fourth last, with 738.

OLYMPIC TEAM IS AN EASY VICTOR.

WINS FIRST RUGBY GAME FROM PALO ALTO ATHLETIC CLUB.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Sept. 9.—The Olympic Club Rugby football team of San Francisco defeated the Palo Alto Athletic Club fifteen, 44 to 8, this afternoon on the Panama-Pacific Exposition grounds in the first game of the California Rugby Union's 1915 schedule.

"Stubby" Stelm and Otton Lachmund, former Stanford players, were the stars of the Palo Alto backfield. The heavy Olympic scrum was superior to the forward combination of the visitors.

The ball went into the bay several times.

JUNIORS DEFEAT THE SENIOR TEAM.

(BY DIRECT WIRE—CLIFFSIDE DISPATCH.)

UNIVERSITY OF CALIFORNIA, Sept. 9.—Manager Stroud announced tonight that "Little Minni," varsity half-back in 1908, is to coach the freshman team. Minni was assistant to Jimmie Hopper, '98, California's most famous quarter-back.

Juniors defeated the seniors in the second interclass game this afternoon by a score of 7-2.

MAXWELL RACERS BACK IN THE GAME

(BY DIRECT WIRE—CLIFFSIDE DISPATCH.)
DETROIT (Mich.) Sept. 9.—More adequate representation of American cars in the fall motor racing events was assured today by the Maxwell Motor Company's sale to Carl Fisher and James Allison of Indianapolis, of the fleet of four 300-cubic inch race cars which played such prominent parts in the early summer meetings. The price was in excess of \$25,000.

These cars have been in storage since the Maxwell company's withdrawal from racing in July.

In the fleet are included the cars that led all American contestants in the Chicago speedway race; the winners of the Sioux City and Omaha speedway events, and the world's speedway five-mile record holder.

Messrs. Fisher and Allison will, it is understood, enter the cars in teams of two at New York and other fall meetings. The new owners are prominently identified with the Indianapolis Speedway.

Chief Engineer Ray Harroun of the Maxwell company will act in an advisory capacity during the tuning up of the cars. It is probable that E. V. Rickenbacker will act as team captain.

The cars are ready for immediate competition. None of them has ever sustained accident.

PRINCETON GETS BEATEN BY YALE.

(BY A. P. NIGHT WIRE.)
GREENWICH (Ct.) Sept. 9.—Yale defeated Princeton five points to four in the final match for the intercollegiate team championship at golf today on the course of the Greenwich Country Club. Princeton won the title last year at Garden City by defeating Harvard in the final match. Prior to that time Yale was the champion for nine successive years.

The Mellens came into the lime-
light when Mrs. Mellens came to the
office of the United Charities with a

golden-haired, blue-eyed child, which
she claimed was her own. The fam-
ily had been helped by the association

and, when doubt was expressed as to
the parentage of the child, Mrs. Mel-
len was induced to apply to the Dis-

trict Attorney's office for a complaint
charging her husband with failure to
provide.

If it is proved that the children
really belong to the Mellens, the mys-
tery will peter out. Records of the

children's births will probably be
asked and other facts concerning their
infancy.

WILL WORK FOR
COMPROMISE PLAN.

PAID-UP INVESTMENT COMPANY
STOCKHOLDERS PLEDGE
SUPPORT.

About fifteen paid-up stockholders
of the Los Angeles Investment Com-
pany met President Flint in his office

yesterday and discussed the plan to
compromise with debtor stockholders.
This is the plan proposed by Mr. Flint

after a thorough investigation of the
situation and authorized by the di-
rectors last week subject to ratifica-

tion by the stockholders.
Mr. Flint learned that about 50 per
cent of the debtor stockholders, of

whom there are 4000, are insolvent.
In advising the compromise he ex-
pressed the opinion that it would be

to try to enforce payment of the
notes and that with the compromise
put into effect and this shadow of li-

gitation removed all the stockholders,
including those who have fully paid
for their holdings, will be better off

for the reason that the actual value
of the stock will be somewhat larger
and the market value very much

greater.
All the points involved were gone
into in detail at yesterday's confer-

ence, Mr. Flint answering many ques-
tions put to him. A. J. Sumner, who
is a member of the Stockholders'

Committee, offered a resolution in-
dorsing the plan and pledging the
members present to do all in their

power to persuade the rest of the
stockholders to agree to the plan. The
resolution was seconded by Alex. Mc-

Kay and carried unanimously.
It is proposed to cancel the notes
of debtor stockholders and to release

a portion of the stock held as security.
Each debtor will receive as many
shares of stock as could have been

bought at the selling price when the
contract was made. The remaining
stock reverts to the company treas-

ury. The settlements are to be
made where it appears that a genu-
ine controversy exists with reference

to the insolvency of the debtor stock-
holder.
Letters explaining the plan in de-

tail and what it is expected to ac-
complish have been sent to all stock-
holders. President Flint expects to

receive favorable replies from a ma-
jority of them soon.

A Delicious Jam

Try the Following Recipe This
Preserving Season.

One of the most favored treats with
the little folks and many grown folks
is bread and jam. This being the

season of the year when jam making
is in progress all over California, the
following simple recipe should be

clipped by every woman for ready
reference:
One pound fruit; 1/4 pound sugar; 1/4

pound good corn syrup. Time: one
to two hours or until fruit drops
heavily from spoon. Wash fruit,

Ridge Route Inspected.

(Continued from First Page.)

until the road has been allowed to
settle and attain a permanent shape.
Probably it will not be done for an-

other year, for the Highway Com-
mission is anxious that the Ridge
route shall stand as a model of its

kind.
It has been money well spent,"
said First Vice-President John S.

Mitchell of the Chamber of Com-
merce, one of the touring party.
"Yes," said Special Representative

McKay of the automobile club, "it is
doubtless so. Any other route would
have cost as much, probably more,

while this route means that two and
three-ton trucks can make the run
from Los Angeles to Bakersfield in

one day loaded to capacity. It is now
a two days' trip. For the business
man with interests in Kern county,

it means one day, going and returning.
On the scenic side, the commonly-
accepted name for the new highway,

the Ridge route, is pregnant with
meaning. It is the Ridge route in
fact, for the road leaps from ridge

to ridge over connecting causeways.
It is a highway hung up against the
sky, with the dark canyon of Castaic

Creek yawning at one turn, and a
smiling ensemble of chaparral-clad
hills at another.

In and out, never attaining more
than a 6 per cent. grade, this road
runs a lane of levelness, across the

backs of the Castaic Hills, through
Lieber Pass, 4353 feet above sea level,
to the land of the sky, where Tejon

Pass cleaves the living mountain in
twain. It is a road that traverses
new country of great possibilities,

runs close by historic Fort Tejon, and
finally merges in the mountains with
the concrete road system of Kern

county.
"Ultimately, there will be a road
from where the State highway system

drives to the floor of the San Joaquin
Valley to the oil fields," said Mr. Dar-
lington.

HEAVY CONSTRUCTION.
The work now drawing to a con-
clusion on the Ridge route has been

under way for two years. It has been
the heaviest road work that has been
done by the State Highway Commis-

sion, and the result is probably the
most satisfactory. In some places a
way had to be chiseled through solid

rock, bringing the per mile cost close
to \$20,000.
In every case the road has been

built fully up to the standard of the
best practices in highway construc-
tion. As the road now stands, with

the culverts of yet unblemished con-
crete and the pick marks still legible
in many cuts, it is a perfect specimen

of roadmaking, lacking only the con-
crete surface to make it beyond criti-

cism.
The opening of the new scenic road

will be an event in motordom, and
is to be made such by the Automobile
Club of Southern California. It will

also mark the end of a fight in which
certain persons had the audacity to
propose that the road be carried a

full seventy miles off an air-line rout-
ing.
Those who made the trip were:

Chairman Fridham of the Board of
Supervisors, and Supervisors Ham-
ilton, Hineshaw and Woodley, First

Vice-President John S. Mitchell, Di-
rector R. W. Burnham and Sidney A.
Butler, chairman of the Parks, Boule-

varde and Roads Committee of the
Chamber of Commerce; Vice-Presi-
dent Horace G. Miller, Director H. W.

Keiler, Special Representative Carl
McKay and Acting Secretary C. E.
Planning of the Automobile Club of

Southern California, and Edward T.
Off of Pasadena and A. B. Johnson of
this city.

LETTERS TO
"THE TIMES."

The Times has long been a bright ex-
pression of the public mind, and its
editorial policy is to be fair and

impartial. It is a pleasure to receive
letters from readers, and the editor
will be glad to consider them.

Please Discontinue.

LOS ANGELES, Sept. 8.—[To the
Editor of The Times:] I have been

reading your issue of Sept. 7, and
am sorry to see that you have
published a long and elaborate

editorial on the subject of the
city officials. I am sure that you
are a fair and impartial man, and

that you will not give the people in
the industrial district a chance to
beauty

equally as busy expectorating and
sprinkling the clothes of men and
women all along the line?

I have long accepted expectation
as one of the distinctive characteris-
tics of the American nation, and

sprinklings of tobacco juice as one
of one's daily trials to be accepted
uncomplainingly.

AN EVERYDAY TRAVELER.

The Street Palms.

LOS ANGELES, Sept. 8.—[To the
Editor of The Times:] Inasmuch as

there seems to be a discussion among
the city officials as to what shall be
done with the troublesome and expen-

sive palms on our three main thor-
oughfares, please allow this sugges-
tion: Why not give the people in the

industrial district a chance to beauty

their homes with these palms, and in-
directly derive a small benefit from
the people's money, which was used to

buy this \$30,000 worth of palms to
beautify the city for the benefit of
the visiting stranger?

Yours for a fair and square deal,
GERTIE E. STEWART,
No. 401 Carolina street.

Stomach and Liver Troubles.

Broadcloths will be winter's favorite material; there can no longer be any doubt as to that; your problem is simply to select the shade most becoming to you.

And as dyed goods are daily becoming harder to obtain, we suggest that you avail yourselves of our unusually large assortment of the best-liked fall colors before they are picked over.

To buy good broadcloths for so little as \$1.50 a yard is good fortune, too. We have others in colors at \$2.50 and \$3.50.

15c Horn Hairpins, 2 for 15c

These come in boxes of six; shell colors.

5c Pin Sheets, 360 Count, 3 for 10c

5c Safety Pins, 1 dozen on a card. 3 for 10c.

3c Revolver or So-no-More Dress Fasteners, black or white; all sizes; 3 dozen for 10c.

15c and 20c Guaranteed Dress Shields, pair 5c

Some odd lots in assorted sizes and shapes; all guaranteed.

10c Sanitary Toilet Tissue, 6 for 25c

Or 5c a package—roll or flat.

50c Wizard Polishing Mops 25c

Every housewife wants at least one of these handy mops; these, fully treated for use, and complete with handle are splendid bargains at 25c.

\$1.00 Bulk Perfume, ounce 50c

In Moquet, lily or violet odors; a special for Friday only.

35c Cut Glass Water Tumblers, 3 for 50c

Or 20c each, cut in pretty daisy patterns.

\$1.75 Midget Alarm Clocks \$1.00

These are guaranteed to keep correct time.

75c and \$1.00 Stationery 50c

Both correspondence cards and letter papers in good quality linen finish; select now for Christmas presents.

Plain All-Linen Handkerchiefs 12 1/2c

Or by the dozen, \$1.50; styles for women and men.

Wonderful Values in Fall Suits at \$20.00

Many women do not care to spend over this amount for their every-day business suits, but they have as perfect a right to the best that \$20 will buy as does the woman whose dress allowance is unlimited.

We have specialized in some excellent navy blue serge suits, conservative in style; pleated and belted, and lined with good satin; and in whitecord suits that have unusually pretty button-trimmed skirts; these are sound investments at \$20.

Serge and Taffeta Dresses \$15 to \$25

Made in newest fall styles, in diversity; shown in navy blue, which is always high in favor.

Travelgowns in Mohair at \$8.50

The most popular gown for traveling that has ever been put on the market; made of good mohair in navy or black, it is simply, yet effectively designed, and will be found smart and convenient and easily kept clean.

Peter Thompson School Dresses \$13.50

In navy or black serge, girls know these dresses so favorably that description is unnecessary.

Baby Blankets 50c

And 60c; size 30x40; with cute nursery patterns done in pink and blue. Size 36x50, in nursery and floral or conventional patterns, at 75c and \$1.25. Size 36x50, bound with silk, at \$2.00. Size 30x40, silk bound, \$1.50.

Baby Bunting Double Blankets \$2.00

These are silk bound, and come in size 24x36; for sleeping bags. White part-wool blankets, 30x40, with scalloped edge, 75c; bound edge, \$1.00.

Sets of Table Linen at \$3.75

More of those beautiful pure linen sets—a handsome pattern cloth with six napkins to match, in three new designs, complete for only \$3.75; we sold dozens of them the last time they were advertised.

Crash Toweling in 5-yard Lengths 37 1/2c

Pieces of five yards, for roller or kitchen towels; very soft and absorbent.

Huck Towels, dozen 85c

Red or white borders; a fine soft huck, for apartments or hotels.

Huck Towels, each 25c

18x36-inch hemstitched; all white fine huck towels with new monogram patterns on the end.

Huck Towels, each 35c

Grass bleached, pure linen, soft, fine towels.

Bed Spreads and Bolster Sets \$3.75

Bolster sets with scalloped edges and sham to match.

Bath Towels 25c

New arrivals in stripes of pink, blue or lavender; a beautiful quality; very heavy and soft.

Birdseye Cotton Diaper 75c

For a piece of 10 yards.

Bathroom Sets \$3.75

These come in blue or pink and include one large, heavy bath mat, two large, heavy bath towels; two small individual towels and two wash cloths.

New La Camille Corsets Are Here for Fall

La Camille is the one perfect lace-front corset with that exclusive rigid back—the Ventilo, which eliminates pressure on the delicate nerves and blood vessels of the spine, and provides a better circulation of air. At all times this built-in corset ventilating feature remains the same—neither perspiration nor wear can change it. Its rigidity (an absolute necessary feature in the back of a corset) remains the same.

The Ventilo device also appears under the front lacing, preventing the lacers from scoring the flesh and permitting better adjustment.

We ask you to investigate the Ventilo Camille, if you are considering a front-lace corset for fall.

SAYS JAPANESE REAL PROBLEM.

Chinese Woman Doctor Tells Oriental Situation.

Pasadena Plans to Please "Panama" Goethals.

High School Pupils to be Taught to Study.

[LOCAL CORRESPONDENCE.]

PASADENA, Sept. 9.—"The greatest problem of China today is the Japanese attitude towards China, which is not Pan-Chinese, as Japan claims, but Pan-Japanese," is the statement made last night by Dr. Yamen Kin, noted woman physician of Tien-tsin, China, who is a guest of Mrs. E. H. Conner of No. 105 South El Molino avenue, widow of a late former Minister to China.

It is not a question of whether China is a republic or a monarchy, according to Dr. Yamen Kin, but of establishing a good, strong, stable government. "America is bound, unconsciously, to have a marked influence on the future of China," she said. "Just now there are 1000 Chinese students in the United States. They are the flower of our country. When they return and go into business or enter politics, or whatever they do, they are influenced by their American training."

"Of all foreign countries the United States is the most esteemed by the Chinese, despite the fact that Americans are often misled to a certain extent as to the actual feeling. When the Chinese government changed from a monarchy to a republic, it was done with a little confusion that it was the President of China who was greatly helped."

"The dress problem has become more simplified. Formerly fortunes were expended in keeping the official properly clothed, but that great burden was removed with the adoption of American dress, which is now the official attire. The women, however, will not generally adopt the European or American dress as their own national costume is both modest and comfortable. Fashions, however, change in China, even for the women, who no longer dress their hair as did their mothers."

"This is a busy age. It used to require two hours and a lot of oil to dress a Chinese lady's hair. Many of the women who are coming to the front do their hair just as you do here."

"In China as yet we have no women's clubs like you have here, but there is a daily newspaper operated and published in China by a woman and women are taking their place in medicine and in many other important professions."

While it is only four years ago, Dr. Yamen Kin, healthily remarks that the Chinese republic is a better one than that of Mexico or even Portugal and by and by she hopes it will compare favorably with that of the United States.

Dr. Yamen Kin received her degree in medicine in New York eight years ago. Shortly afterwards she returned to Western China and President Yuan Shi Kai, who was then Viceroy of China, sent out an edict for any one who could advance any reforms in China. As a result Dr. Yamen Kin conferred with him and the Tsi Yang Hospital at Tien-tsin was established and she was put in charge. She will speak before the Elbel Club in Los Angeles today on various Chinese topics. Dr. Yamen Kin still wears the Chinese costume, but is American in everything else and speaks English perfectly.

PLANS FOR GOETHALS.
The builder of the Panama Canal, Maj.-Gen. G. W. Goethals, will be Pasadena's guest at a luncheon at the West Maryland next Wednesday. President John Willis Bear of Occidental College, a personal friend of Gen. Goethals, added his invitation to that of the city, writing that he hoped the famous engineer and ex-minister would see his clear acceptance, and accept him of a warm welcome in Pasadena.

The luncheon will probably be one of the most important events of the kind ever given in Pasadena. In the long list of prominent men and women entertained by Pasadena in the past, Gen. Goethals will rank among the foremost.

It is the present plan, after the luncheon is over, to allow women to come in for the speaking. It would probably be impossible to take care of all those who will wish to attend the banquet, but it is desired that those who may wish to hear the general be given the opportunity to do so. Gen. Goethals will be met at the Hotel Alexandria during his high-water mark membership of the Home. He will time permit, will be taken for a drive about Pasadena, either before or after the luncheon.

TAUGHT TO STUDY.
High school students in Pasadena are going to be taught how to study this, in the estimation of the teaching.

BRAWLEY.

BRAWLEY, Sept. 9.—President George Anderson of the Imperial Valley Hardware Company, in whose store the fire started last night that swept a path through Brawley's main business block, announced today that his company would begin immediately to rebuild. This company suffered a loss of nearly \$40,000 in the conflagration that caused damage estimated today to have been \$125,000. More than \$100,000 of this total was covered by insurance.

Indicating the progressive Brawley spirit, the ruins of the 100-foot row of burned buildings had hardly cooled yesterday before plans were made for rebuilding at once by the eight firms affected. Fire walls were few in the old buildings, and it is planned to render all new structures fireproof.

WOMAN'S AUTO KILLS A MAN.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

MONTEBELLO, Sept. 9.—William Phelan of Montebello, who was struck by an automobile driven by Miss Jessie Pra of Pico, on Whittier boulevard, near Long Beach boulevard, this afternoon, died an hour later at the Montebello Hospital.

Mr. Phelan was on a tandem motorcycle driven by William Kretzinger of Montebello, who was unharmed with the exception of a few bruises and scratches.

The motorcycle stopped in front of the Patton place. The car machine came from the rear and struck the motorcycle, overturning it, and passing over Mr. Phelan's body, breaking both legs just above the ankles and causing fatal internal injuries.

Miss Pra was accompanied by her brother, Frank, who was on his way to make deliveries from the dairy at Lexington and Gallatin roads. The body is at the White undertaking establishment, Whittier.

are being considered a necessary part of the curriculum. In order that this radical feature may be given a fair trial the school programme has been changed from seven forty-five-minute periods daily to five one-hour periods.

Forty minutes of each period will be devoted to recitations and the remaining twenty minutes will be given over to supervised study. The idea being to teach the student how to attack and analyze a problem, the use of reference books, concentration and general application to the subject in hand.

Pasadena is believed to be the first western city to adopt this plan, which has been tried out successfully in several of the largest high schools in the East. Normal and college faculty members have made the criticism that it does not teach the student properly how to study or how to grapple with intellectual problems. The change will greatly lessen home study, but does not do away with it entirely.

The new term will open September 20, and it is predicted that the enrollment this year will reach the 2000 mark. Registration of pupils will be begun next Tuesday morning, and will continue throughout the week.

QUICK SERVICE.
All the way from Mormon-land to Pasadena.

On a pretense that Mrs. Jones was coming here to go to school, Miss Irene P. Kappler, daughter of a wealthy ranchman of Miller, skipped away from home and, on arriving at Los Angeles, telephoned her fiancé, John C. Rowan, son of Mr. and Mrs. J. P. Rowan, of No. 176 Wilma avenue, to meet her.

Mr. Rowan bought a ring on the way, caught the first car for Santa Ana with his lady love, found a Justice of the Peace, and came home a benedict. Mrs. Rowan is 16 years old and her husband is 15. She says they have been secretly engaged for two years, and she says she has the disconcerting habit of usually getting whatever she goes after.

Mrs. Rowan was formerly a student at the Pasadena High School, and has hosts of friends in this city. Mr. Rowan is employed at The Times Branch office in Pasadena.

VETERAN KILLS HIMSELF.
Constant Suffering Causes Inmate of Soldier's Home to Place Pistol to His Head.

SOLDIER'S HOME, Sept. 9.—Alfred McAllister, a veteran member of Barrack A, tired of suffering from incurable illness, placed a pistol against his breast, as he lay on his cot last night, and sent a bullet through his heart, dying before comrades in adjoining cots could reach his bedside.

That the aged soldier had for some time contemplated the act, was made apparent in the statement of his closest friend and comrade, Jack Hones, who says that a short time ago McAllister handed to him his G.A.R. badge and button and other insignia, with a request that in the event of his death, he (Jack) should personally place the articles on his body.

McAllister, in addition to suffering from partial paralysis, was afflicted with constipation to an extent that induced the use of morphine, and deterioration followed. He obtained a supply of that, it is believed, hastened the fatal act. He was popular among his comrades, and prominent in local politics during his twenty-four years' membership of the Home. He was also a charter member of Uncle Sam Post, No. 177, G.A.R., of this place.

CAMPING DAILY ON DOORSTEPS.

Angeleno School Teacher Picks Her Company.

Son of Oregon Lumber King Dies Suddenly.

Riverside "Fussed up" Over City Ordinance Dispute.

[LOCAL CORRESPONDENCE.]

RIVERSIDE, Sept. 9.—Miss Zella Scholer of Los Angeles, engaged to teach the school at Lakeview, fifteen miles southeast of this city, is camping daily on the front doorsteps of the little schoolhouse, which has been locked against her, with a view to bringing suit for her salary.

In reporting for duty on Monday, when school was to open, she was assigned by the trustees to board with one of the families of the board. This the plucky teacher refused to do. One of the trustees is said to have threatened to lock the door of the schoolhouse and pocketed the key.

County Superintendent of Schools Cree is out of the city, but is understood to be upholding the teacher in her stand.

FALLS TO HIS DEATH.
Dr. W. H. Simpson, reputed multi-millionaire, son of the late A. N. Simpson, who was one of the lumber kings of California and Oregon, died at the Riverside Hospital last night as the result of a fall on a stairway in the Reynolds Hotel.

Dr. Simpson had been a guest of H. B. Aditt, and the two were descending to the lobby from the second floor when Simpson seemed suddenly stricken, falling heavily to the marble floor of the lobby when near the foot of the stairs.

The unconscious man was taken to the hospital where death, due to concussion of the brain, followed within a few hours. Simpson made the Riverside about eighteen months ago, occupying the E. J. Castleman home on Rubidoux drive. Besides the widow, he leaves two brothers, L. J. Simpson of Oregon and Edgar Simpson of California.

An Ideal Food And Drink
Information of Value to Every One—Whether in Delicate or Robust Health.

There is one food product—a better understanding of which would result in incalculable benefit to the human race—and that is malted milk. A good malted milk consists of the nutritive elements of the richest cows' milk and malt, together with other strengthening cereals scientifically combined. It is not a medicine, but a delicious food drink, palatable, nutritious and invigorating.

Its widespread use as a food, easily assimilated by young children, convalescents and nursing mothers, should not obscure the fact that it is enjoyed by immense numbers of people of all ages in perfect health; and that it is used as the basis of many delicious drinks and dishes.

You cannot possibly realize all the beneficial results which malted milk can produce if an inferior quality is used. At the San Francisco Exposition, "The Grand Prize" (highest possible award) has been conferred upon that old reliable brand—"Borden's Malted Milk in The Square Package"—which has thus been "proven best by every test."

Why then experiment with inferior substitutes when Borden's costs no more? When ordering insist upon the best—Borden's Malted Milk in The Square Package. At all modern drug-gists.

Your Health Depends Upon Your Food
Eat What Nature Has Prepared for You.

Some people, three times a day, load their stomachs with the worst kind of indigestible food and still expect to keep in A-1 condition. Improper foods sooner or later bring ill health.

Good, wholesome food such as whole wheat will not only nourish you but will keep you "fit" without the aid of medicine.

Eat whole wheat and lots of it—that's what Nature intended bread should be made of—not made from white flour, the part of the wheat that contains the least vital nourishment. The best part of the grain is the outer side which contains the gluten.

There is a prepared food made from whole wheat, called "FORCE," which is not only an excellent substitute for bread, but also takes the place of meat to a great extent.

If you want to start right and keep right throughout the day, try "FORCE" for breakfast. Eaten with milk or berries, it beats bacon and eggs all hollow. At all good grocers.

PITIFUL TALES OF SUFFERING.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

CALEXICO, Sept. 9.—Pitiful tales of suffering were told by members of a party of thirty Hindus and Japanese arriving at Mexicali last night as the only survivors from a pilgrimage begun by fifty-seven of their countrymen across the desert from the Gulf of California two weeks ago.

The survivors, half dead from starvation, were brought to the border town by a company of Cantu soldiers sent out several days ago to find them. The other twenty-seven members of the original party are thought to have perished, as no trace of them could be found by the rescuers.

The first news of the plight of the originals was brought to Mexicali a few days ago by two Hindus who had left the others and hurried ahead. According to the story, as it was translated at Mexicali, the men all put ashore on San Felipe Island, forty miles from the mouth of the Colorado River.

They made their way to the mainland by means of a small boat left

with them. Then they started the long hike of more than sixty miles to Mexicali with a scanty supply of food.

The winding course of the Colorado was followed to a considerable distance, but finally the party separated, owing to a dispute over which was the direct route to Mexicali.

The food gave out, and many of the party dropped by the wayside. Others followed the Colorado for many miles, and most of these are among the rescued today.

Gov. Cantu is caring for the survivors at the Mexicali garrison, and has announced he will provide work for them when they recover.

Despite a request made Gov. Cantu of Lower California by Capt. George Moseley, commanding American troops on the border, to release Jose Delgado, charged with being a Carranza spy, Delgado remains tonight in the Mexicali jail, incommunicado. The request was made by Capt. Moseley unofficially, as Moseley is a friend

of Cantu, and expected his request to be granted.

Gov. Cantu, however, would thoroughly investigate the case of Delgado before releasing him, the prisoner, who claims to be an American citizen, on a parole, as asserted by him was a parolee, saying that Delgado was on parole last winter.

Delgado has frequently been employed by the United States military service, and on a recent occasion was with Mexican soldiers on the border. These soldiers have reported to Gov. Cantu that Delgado was spying on them.

When Delgado crossed the border the other day he was seized by can soldiers, and his case remains in doubt, in spite of strenuous pleading made by Calexico friends for his release.

ASKING FOR BIDS.
[LOCAL CORRESPONDENCE.]

LA HABRA, Sept. 9.—Bids will be received Monday for the new packing house, 50x157 feet, which is to be erected immediately to the rear of the two previously built, thus completing the immense plant operated by the La Habra Citrus Association.

Phase Grows Out of Eccles Repudiated Affidavit.

U.S.C. COLLEGE OF LAW.
Registration is under way in the college of law, University of Southern California, for the fall semester. Dean Porter reports an unusually heavy attendance for this time of the college year. Instruction will begin in all classes next Thursday. One of the new students this year will be Bradford Morse Melvin, son of Associate Justice Melvin of the California Supreme Court. Mr. Melvin has registered as a freshman.

EJECTED; GETS INTO JAIL.
David Mc C. French was arrested early last night in an apartment house at Ninth and Park View streets on complaint of the landlord, who stated the young man was drunk and had smashed furniture. He was locked up at Central Police Station. Mc C. French, according to the landlord, was ejected from the apartment house Monday, and when he returned last night became obstreperous. The landlord exhibited a swollen fist which he said he sustained in striking the young man.
